PV:1525 Series

Handheld 1500V 25A PV Test Instrument

The PV:1525 Series is designed for installers and O&M engineers to allow electrical safety testing and performance measures in PV systems up to 1500VDC and 25A, ideal for residential and commercial level installations.

Both instruments in the range perform Ground Continuity, Insulation Resistance, Open Circuit Voltage, Short Circuit Current, and the flagship PV:1525-IV adds IV Curve Tracing too! With a new innovative user interface, the PV:1525 series retains the ease of use from the previous generation while adding additional features fit for a modern test instrument. Results can be tagged with information relating to the installation for ease of data management.

With Bluetooth capabilities, test results can be easily transferred to a mobile app for review and further sync with software, ensuring your device is always up to date with the latest features.

#### **Key Measurement Features:**

- > PV String Open Circuit Voltage Measurement up to 1500V DC
- > PV String short circuit Current up to 25A DC
- > Insulation Resistance voltage up to 1500V DC

#### **Part Numbers:**

1525

- > PV:1525 Kit (601A910)
- > PV:1525-IV Kit (601A915)
